Shibboleth BOF
TechEx 2017

Agenda

- Thank you's and a brief update on our financials
- Update on support rollout
- 2017 review
- 2018 plans
- Open discussion

2017

- Supporting adoption of IdP V3.3, particularly MFA features
- Two security releases
- Substantial work done on IdP V3.4
- Major cleanup effort started on SP and its dependencies
- Funding-related obligations

3.4 Highlights

- Centralized deprecation warnings
- Logout workflow revamp (not done yet, so not sure on scope)
- Metadata-driven configuration of relying party settings
  - https://wiki.shibboleth.net/confluence/x/VQC_AQ
- REST DataConnector with scriptable request/response handling
- Revamped dependency syntax in resolver to address ambiguities
- Cleaner webapp customization layout
- REST API to report on configuration settings (not done yet)
- Lots of other little bits

2018

- IdP V3.4 (might ship in 2017 but likely will be 2018)
- SP V3.0
- Delivery of Metadata Aggregator on new Java 9, Spring 5 base
- Work in earnest on IdP V4.0
- Hopefully completion and review of OIDC plugin by CSC

Questions / Discussion
